Hospital Infection Control
2002 Index

Anesthetists
3% report reusing needles, DEC:140

Aspergillosis
Outbreak of in transplant patients, JUN:69

Association for Professionals in Infection Control and Epidemiology (APIC)
May hold joint conferences with SHEA, AUG:96

Biofilms
Persister cells trigger infection relapse, JUN: 71

Bioterrorism
CDC says infection control on front lines, JAN:5
Fear a consideration in dealing with, APR:45
Tip sheet for expecting the unexpected, JAN:6

Bioterrorism Watch *(Supplement)*
ACIP recommendations on smallpox vaccine, SEP:11
AHA questions smallpox plan, JUL:8
Anthrax creates fear, JUN:1
Bioterrorism exercise tips, MAY:2
Bioterrorism forensics evolves, APR:4
Can bioterrorism response bridge communication gaps? APR:1
CDC gets advice on bioterrorism, APR:2
CDC prepares for mass smallpox vaccinations, NOV:17
CDC moving quickly on smallpox, JAN:4
CDC weighs smallpox vaccination, JUL:1
Clues to distinguish flu from anthrax, JAN:1
Is airborne smallpox a new fear? SEP:9
People exposed to anthrax refuse treatment, MAR:1
Questions about smallpox vaccination of HCWs, SEP:15
Researchers study airborne anthrax, MAY:4
Side effects undermine anthrax drug, MAR:3
Smallpox plan uses outdated infection control, JUN:3
Smallpox super-strain suspected, SEP:12
Smallpox vaccine immune globulin, JUL:4
Stanford sets standard for bioterrorism planning, JUN:4
Stress counseling for HCWs after bioterror attack, MAY:1
Was anthrax mailer a bioweapons researcher? APR:3

Bronchoscopes
Patient deaths lead to recall, APR:49
Problems with lead to no change in recalls system, JUN:65
Q&A with Olympus, JUN:68

Candida parapsilosis
Outbreak of fatal catheter-associated infections, JUN:69

Centers for Disease Control and Prevention (CDC)
Bans scrub brushes, fake nails: FEB:22
Central venous catheter guidelines by, SEP: 108
Director of advises striving for zero infection, NOV:134
Director says alcohol hand rubs standard of care: DEC:141
Infection control on front lines in bioterror war, JAN:5
Routine TB screening may be dropped, MAR:33
Smallpox vaccinations recommended for ICPs, NOV:125
Washing its hands of soap and water, JAN:1

Chicago Tribune
CDC, APIC react to report by, SEP:103
Taken to task for infection control report, SEP:101

Clostridium clostridiiforme
First report of as nosocomial pathogen, DEC:146

Creutzfeldt-Jakob disease (CJD)
CDC disinfection and sterilization guidelines for, JUN:72

Endoscopy
Concern about infection control lapses, JUL:80
Gold standards for processing, JUL:81

Enterobacter
Resistant strains cost $30,000 a case, JUL:87

Food and Drug Administration (FDA)
Bronchoscope problems lead to no change in recalls by, JUN:65
Clarifies open-but-unused reprocessing requirements, AUG:97
Recalls human tissue, SEP:109
Recalls nonsterile devices, JUN:72
Revises reprocessing dates, MAR:37
Seeks comment on open-but-used single-use devices, OCT:118
Seeks needle safety device input, AUG:94

Hand hygiene
Alcohol gels as good as hand washing, SEP:110
Artificial nails, FEB:25
CDC director says alcohol rubs standard of care: DEC:141
CDC draft bans brushes, nails: FEB:22
Electronic voice prompts to wash hands, NOV:130
New era of alcohol rubs, NOV:128; 129
Rings may harbor pathogens, MAR:36

Healthcare Infection Prevention (HIP *supplement*)
Bringing clinics into JCAHO compliance, OCT:1
Dialysis catheters linked to infections, OCT:4
Dialysis catheters spur infections, drug resistance, DEC:1
Dialysis infection control recommendations, DEC:2
Dialysis outbreaks diverse and deadly, DEC:4
Group A strep outbreak in long-term care, MAY:59
Infection control for physician offices, AUG:2

Need back issues? Call our order department at (800) 688-2421; inside Georgia (404) 262-7436. Copyright © 2002 American Health Consultants®.

Long-term care patient hydration program, MAY:1
Long-term care patient safety standards coming, AUG:4
Meningitis due to cochlear implants: OCT:3
Physicians offices free of JCAHO oversight, AUG:1
Surgery center sacred cows, AUG:3

Healthcare Infection Control Practices Advisory Committee (HICPAC)
Discusses strategies for drug-resistant pathogens, APR:44
Guidelines by emphasize performance measures, APR: 41; 43
Struggles to unify isolation precautions, NOV:132

Hepatitis C virus (HCV)
HIV patients should be tested for, AUG:98

HIV
HCV testing recommended for patients with, AUG:98
Provider to patient transmission of OCT:119
Rapid tests will help PEP decisions, DEC:145
Shortage of supplemental test kits for, JUN:75

Infection control professionals (ICPs)
Innovators form teams, JAN:8
Make business case of infection control, OCT: 117
Smallpox vaccinations recommended for, NOV:125
Urged to join patient safety network JUL:77; 79
Win *HIC* Innovation awards, DEC:139

Joint Commission on Accreditation of Healthcare Organizations
Drops plans to reduce infection control standards, DEC:137
Bringing clinics into compliance with, *HIP* OCT:1
Nursing shortage strategies by, SEP:106
Statistics on projected nursing shortage, SEP:107
Patient safety goals set by, OCT:121
Physicians offices free of oversight by, *HIP* AUG:1

Klebsiella pneumoniae
$350,000 outbreak in an NICU, JUL:82

Laboratory
Workers in face risk of meningitis, APR:46
Two deaths due to meningitis, APR:47

Multidrug-resistant pathogens
Australian, Canadian ICPs battle, DEC:143
CDC struggles to unify isolation precautions, NOV:132
HICPAC strategies for drug-resistant pathogens, APR:44

Methicillin-resistant* Staphylococcus aureus *(MRSA)
Canadian ICPs battle, DEC:143
Eucalyptus leaves show efficacy against, JAN:11
Linezolid effective against, AUG:93
Screen and isolate or standard precautions? JUL:85

Needlesticks
FDA seeks needle safety device input, AUG:94
Health care workers report reusing needles, DEC:140
Poor work climate, high workloads linked to, AUG:100

Occupational Safety and Health Administration (OSHA)
May try to salvage TB standard, MAR:29
Risk of TB infection by, MAR:31

Patient safety
Errors that should be reported, FEB:16
ICPs urged to join network, JUL:77; 79
JCAHO patient safety goals, OCT:121
Medication errors and solutions, FEB:17
Medical errors partnership, MAR:36
Physicians offices free of oversight by, *HIP* AUG:1
Preventing wrong-site surgery in your hospital, JAN:10
Time to drop blame and shame, FEB:13
Transferring patients increases risk of infection, MAR:40
Staffing and adverse outcomes, FEB:24

Sepsis
Genetically engineered treatment of, MAR:7

Society for Healthcare Epidemiology of America (SHEA)
may hold joint conferences with APIC, AUG:96

Staffing
JCAHO nursing shortage strategies by, SEP:106
JCAHO statistics on projected nursing shortage, SEP:107
Nurse staffing bill cites infection risk, FEB:24

Streptococcus pneumoniae
Day-care children at risk of, FEB:20
Strains of share gene secrets, FEB:21

Surgery
Donor knee cartilage linked to death, JAN:8
LASIK infections due to icing saline, MAR:34

Tuberculosis (TB)
OSHA may salvage standard on, MAR:29
OSHA risk of infection by, MAR:31

Vancomycin-resistant enterococci (VRE)
Australian, Canadian ICPs battle, DEC:143
Mortality caused by, APR:50
Screen and isolate or standard precautions? JUL:85
Strains of resistant to linezolid, APR:52
Viruses used against, MAR:38

Vancomycin-resistant* Staphylococcus aureus *(VRSA)
Dreaded debut of, AUG:89
Foot ulcers precede, AUG:92
Second case appears, NOV:133

Ventilator-associated pneumonia
CDC bans routine circuit tubing changes, OCT:113
CDC recommendations to prevent, OCT:116
High costs in more ways than one, OCT:115

West Nile virus
Signs symptoms in transplant recipients, OCT:121
